Training experiences	Contributing to the development of training activity in the fields related to regional planning, local development, decentralization and local administration, with the aim of preparing distinguished administrative leaders in the field of planning and development who are qualified to deal with international and local changes in their organizations, whether governmental or non-governmental, with the aim of developing them, improving their efficiency and increasing their effectiveness, by blending knowledge. Scientific expertise and applied practices in full cooperation and coordination with all Egyptian governorates, and with the full support of all local development leaders. This has contributed to creating a wide network of relationships at the local level (governorates - ministries - members of the People's Assembly), in addition to the Arab level (Sudan, Saudi Arabia). (Jordan) and some international organizations, all of which helped implement many programs, which included the following: • Conducting a series of workshops on decentralization and local development, as part of the Ministry of Youth's Senate simulation model, during the period 2024-2025. • Implementing two workshops on decentralization between planning, budget preparation and service provision for members of the Egyptian

House of Representatives, with the aim of introducing participants to the mechanisms and variables of planning and budget preparation at the local level, the role of the plan and participatory budgeting in improving decentralization and the efficiency of providing public services locally, and the role of accountability in strengthening governance. Decentralization and local evaluation and follow-up systems, enhancing transparency and community participation, in addition to discussing the best regional and global experiences on the role of participatory planning, participatory budgeting and social responsibility in enhancing decentralization and the efficiency of public service provision, during the period (2020-2021).

- Implementing 12 training programs in cooperation with the Ministry of Local Development and the United Nations Development Programme, with the participation of 600 trainees (50 trainees/governorate) from officials and workers in the governorate's executive and popular bodies and representatives of civil society, the private sector, the National Council for Women, party secretariats, and religious organizations. This is with the aim of introducing them to and developing their skills and abilities about: human development indicators, development gaps (spatial and qualitative) between the administrative units in the governorate and the factors responsible for them, means and foundations for preparing local development strategies and plans in the governorate, and policies and tools for implementing them. The implementation of these programs was during the period (2006-2007).
- Implementing 4 training programs on unifying the concepts and indicators used in human development reports in cooperation with the Ministry of Local Development and the United Nations Development Programme, with the participation of about 85 trainees working in information centers in the Egyptian governorates, with the aim of developing their skills on collecting, tabulating and analyzing data and information and how to estimate the indicators necessary to update reports. Human development on a permanent basis, in preparation for the formation of human development units within the information centers in the governorate that will be able to provide data, information and indicators to decision makers and policy makers, to help them develop the plans and policies necessary for the development of their local communities. These programs were implemented during the period (2006-2008).
- Implementing a training program on "Strategies for Regional Development and Local Administration: With Application to the Governorates of Ismailia, 6th of October, North Sinai and Alexandria," during the period (3-17/6/2007), with the participation of 7 trainees from officials of the Ministry of Municipal and Rural Affairs in the Kingdom of Saudi Arabia. Saudi Arabia.

	• Implementing a training program on “Preparing Urban Studies: With Application to the 6th of October and Alexandria Governorates,” during the period (6/24–7/5/2007), with the participation of 7 trainees from officials of the Ministry of Municipal and Rural Affairs in the Kingdom of Saudi Arabia. • Implementing about 12 training programs on regional planning and local administration for senior officials in the Republic of Sudan during the period (2007-2008), 11 of which were in Egypt, and one in Sudan, with the participation of about 220 trainees in Egypt and 150 trainees in the Republic of Sudan. • Implementing one training program on “The Egyptian Experience in the Media... Television Channels and Local Development: With Application on Channel 4 of Channel TV” during the period (2/17 - 2/21/2008), with the participation of about 9 media trainees in the Republic of Sudan. • Implementing two training programs on “The Role of Small Industries in Regional Development” during the period (March-April 2008), with the participation of 30 trainees from officials in the Republic of Sudan. • Implementing one training program on the experience of the Egyptian governorates in integrated rural development during the period (3/16 - 3/20/2008), with the participation of 12 trainees from officials in the Republic of Sudan. • Implementing two training programs on “legislation and control systems in local administration with application to Ismailia Governorate” during the period (February - March 2008), with the participation of 45 trainees from officials in the Republic of Sudan. • Participation in the implementation of two training programs on “Regional Development Strategies: With Application to the Governorates of Ismailia, 6th of October, Suez and Gharbia,” during the period (10/26 – 11/6/2008), with the participation of 7 trainees from officials of the Emirate of Al-Baha in the Kingdom of Saudi Arabia. • Participation in implementing a training program for employees of the Ministry of Planning in Jordan on regional planning and local administration during the period (10-22/4/2004), Cairo. • Implementing a workshop on “Modern trends in regional planning and local development” in Khartoum in 2015, with the participation of 50 trainees from senior officials in the Republic of Sudan. • Implementing a workshop on “The Egyptian Experience in Combating Poverty” by applying it to Ismailia Governorate during the period (26-31/3/2016), Cairo, with the participation of 22 trainees from senior officials in the Republic of Sudan.
Teaching experiences	• Regional planning and development, • Decentralization and local administration, • Analytical methods in regional planning,

	• Measuring local and regional differences, • Human development indicators at the governorate level, • gender planning, • Urban development and slum development, • Participatory planning, • rural and urban development, • Methodology for measuring GDP at the national and local levels, • Population and workforce planning.
Executive work experiences	<u>Head of the Regional Planning Sector (Ministry of Planning and Economic Development):</u> It includes carrying out all the work assigned to the head of the sector, which includes: developing the initial vision for the regions' plans, in accordance with the general directions of the state plan, following up on its implementation and achieving a balance between the national and regional plans, in order to achieve balanced and sustainable regional development, planning work programs, coordination, control, direction and motivation for the departments affiliated with the sector. Preparing basic indicators for economic and social growth for regions and localities, identifying development gaps and indicators at the level of governorates and their administrative units, in addition to supervising the preparation of some studies related to slums and industrial zones in all governorates. <u>Regional Planning Advisor (Ministry of Local Development):</u> It includes preparing visions and policies for the development of governorates, representing the ministry in meetings of the Industrial Development Authority, meetings on geographical targeting of poor villages at the Ministry of Defense, and preparing for the Supreme Committee for Local Planning and the Supreme Committee for Local Human Development.
